WORK EXPERIENCE

IT INTERN (OJT) | PULP CONCERT COMPANY

- Assisted with the development of a new application to support intern applications.
- Helped update the company website with promotional posters and related promotional content.
- Retrieved and transferred archived data from CDs into a database for easier access and record keeping.
- Assisted with basic IT support requests, including Wi-Fi connectivity and printer issues.

PROJECTS

SPENDWISE | Savings Website

- Developed SpendWise, a website that helps users manage their money and build their savings.
- Designed a simple, user-friendly interface for tracking savings and spending.
- Added features for recording income and expenses and setting savings goals.
- Applied web development skills in building and organizing the site's pages and data.

SMART DENTAL | Dental Appointment App

- Developed Smart Dental, a mobile app for booking and managing dental appointments, using React Native.
- Designed an easy-to-use mobile interface so patients can schedule visits quickly.
- Applied mobile app development skills in building the app's screens and appointment flow.
